

## **IN THE CLAIMS**

1. (Previously Presented) A disposable hygiene device, comprising:  
a toilet seat with a top surface and a bottom surface adapted to fold for storage before or after use;  
a receptacle attached to the bottom surface of the toilet seat; and  
an adhesive located on the top surface that is exposed after use by removal of a protective covering,  
wherein the toilet seat further comprises a visual orientation cue on the toilet seat.
2. (Currently Amended) The disposable hygiene device of claim 33 4, wherein the toilet seat further comprises at least one pair of handles that are part of handle ~~located on the toilet seat.~~
3. (Cancelled)
4. (Currently Amended) The disposable hygiene device of claim 2 4, wherein the orientation cue comprises an extension of the toilet seat extending from a front of the toilet seat.
5. (Currently Amended) The disposable hygiene device of claim 4 4, wherein the toilet seat comprises at least one fold-line that promotes folding of the toilet seat.
6. (Currently Amended) The disposable hygiene device of claim 5, wherein the visual orientation cue on the toilet seat comprises markings on the toilet seat to indicate proper or improper use of the toilet seat ~~further comprising an envelope in which the toilet seat may be stored before or after use.~~
7. (Currently Amended) The disposable hygiene device of claim 6, further comprising toilet paper, sanitary wipes, at least one odor control device ~~devices~~, hydroscopic material, or ~~and~~ combinations thereof.

8. (Original) The disposable hygiene device of claim 1, further comprising a portable hygiene station comprising a support ring capable of receiving the toilet seat.
9. (Original) The disposable hygiene device of claim 8, wherein the supporting ring comprises a visual orientation cue to facilitate placement of the toilet seat on the supporting ring.
10. (Currently Amended) The disposable hygiene device of claim 9, wherein the portable hygiene station further comprises a support grip, a toilet paper dispenser, a sanitary wipe dispenser, ~~a wash basin, a sink,~~ a storage unit, an odor control device, a temperature control device, a wheel, a wheel lock, multiples and combinations thereof.
11. (Original) The disposable hygiene device of claim 10, wherein the portable hygiene station further comprises a chair with integrated support grips, a plurality of wheels, and a wheel lock.
12. (Original) The disposable hygiene device of claim 11, wherein the chair is a bench.
13. (Withdrawn) The disposable hygiene device of claim 11, wherein the chair comprises a frame.
14. (Withdrawn) The disposable hygiene device of claim 9, wherein the portable hygiene station further comprises a ramp.
15. (Previously Presented) The disposable hygiene device of claim 1, wherein the portable hygiene station comprises a transparent material to facilitate identification of completion of a hygiene task.
16. (Withdrawn) A hygiene station, comprising:  
a support for an individual in a sitting position;

a surface on the support to hold a toilet seat of a disposable hygiene device;  
and

a well or open space in the surface adapted to receive a receptacle of a disposable hygiene device,

wherein the surface comprises at least one visual orientation cue for proper alignment of the disposable hygiene device.

17. (Withdrawn) The hygiene station of claim 16, wherein the visual orientation cue comprises a recess in the surface that corresponds to the shape of the toilet seat.

18. (Withdrawn) The hygiene station of claim 16, further comprising facilitating components selected from a support grip, a toilet paper dispenser, a sanitary wipe dispenser, a wash basin, a sink, a storage unit, an odor control device, a temperature control device, a wheel, a wheel lock, multiples and combinations thereof.

19. (Withdrawn) The hygiene station of claim 17, further comprising a plurality of modular components that comprise the facilitating components and the chair.

20. (Withdrawn) The hygiene station of claim 17, wherein the hygiene station is adapted to be used in a bedroom.

21. (Withdrawn) The hygiene station of claim 16, further comprising a ramp to the support surface.

22. (Withdrawn) The hygiene station of claim 20, wherein the hygiene station is adapted to be used in a bed.

23. (Withdrawn) The hygiene station of claim 16, wherein the hygiene device is portable.

Claims 24-32: Cancelled

33. (New) The disposable hygiene device of claim 1, wherein the toilet seat is substantially flat.
34. (New) The disposable hygiene device of claim 2, wherein the visual orientation cue on the toilet seat comprises markings on the toilet seat to indicate proper or improper use of the toilet seat.
35. (New) The disposable hygiene device of claim 7, wherein the at least one odor control device is located within the receptacle, is part of the receptacle material, is part of the toilet seat or is part of the adhesive.
36. (New) The disposable hygiene device of claim 7, further comprises a hydroscopic material.
37. (New) The disposable hygiene device of claim 10, wherein the chair further comprises a visual orientation cue.
